

Insero HT1010D Heater

High Performance Portable Heater

TECHNICAL SPECIFICATIONS

Model.....HT1010D Portable Heater
 Dimensions
 Length.....13'4"
 Width.....7'3"
 Height (with exhaust stacks).....7'
 Weight (approx).....4,500 lbs
 Weight (with fuel)6,100 lbs
 Fuel Capacity220 gallons

FEATURES

- 220 gallon fuel tank capacity provides up to 24 hours of continuous run time.
(Fuel consumption - 6 GPH/hour while engine running)
- Up to 115% containment
- Hour meter and start/stop switch with automatic shutdown protection for low oil pressure and high coolant pressure
- Shore power connection capability improves fuel economy when electric power is available
- Return air capability to increase heating efficiency
- Reliable starting power from a maintenance free 4D 12V battery with 1125 cold cranking amps
- Auxiliary 120 VAC (240V/50Hz) power outlet with GFCI and 20A service provides a powerful convenient power source.

TECHNICAL DATA

Engine	CAT C1.5 Diesel Engine Emissions Compliance: Tier 4 Final 18.7 HP (14kW) @ 1800 RPM
Heaters	Heat Output (each): 500,000 BTU/HR Total Heat Output: 1,000,000 BTU/HR Max Air Flow (each): 3,250 CFM Discharge Air Temperature: 185° F
Fuel Capacity	220 gallon fuel tank capacity - up to 24 hours of continuous run time (6 GPH/hour - while engine is running)
