

RENTAL PACKAGE

150 Ton Air Handler V2

Air handlers provide conditioned air for buildings, warehouses and industrial applications. Units are plumbed into a chilled water system for operation. Capable of operating on return air or 100% outside air with optimum performance. Vari drive control allows for varied airflow depending on the application. Stackable - Two High Max.

SPECIFICATIONS:

Model.....	150 Ton AHU V2
Dimensions	
Length.....	130"
Width.....	96"
Height.....	83"
Weight.....	3,500 lbs.

APPLICATIONS:

- Climate Control
- Comfort Cooling
- Warehouse Cooling
- Equipment Replacements
- Dense Air Injection
- Controlling Process Area Conditions
